Disclaimer:

Hypnosis Recordings are NOT meant to replace medical or psychological treatment or consultation. If you have a serious medical condition, please consult with your physician. Ask about hypnosis and work with your physician to choose the right treatments for you.

State of Mind hypnosis has provided the information contained within this audio both to instruct the general public about the nature of Hypnosis, Hypnotherapy, Guided Imagery, and Self- Hypnotic Techniques, and to inform the public about the wholesomeness and usefulness of these techniques in facilitating healthy lifestyle changes and/or alterations in personal habits for vocational and avocational self-improvement.

Hypnosis, Hypnotherapy, Guided Imagery and Self-Hypnotic Techniques are not in any way meant as a substitute for standard medical, psychological or psychiatric treatment for serious or life-threatening conditions, such as medical trauma, surgical emergencies, bacterial infections, certain bodily “mechanical” difficulties, and thought disorders such as psychosis or schizophrenia. These techniques are an adjunctive/ complementary alternative for self-healing, self-help, and behavioural modification. Potential clients under the age of 18 must provide written consent by a parent or legal guardian to use any services provided by State of Mind Hypnosis.

State of Mind Hypnosis makes no expressed or implied guarantees of results, in so far as human behaviour cannot be predicted. The public is duly informed that as individuals vary, so do results, and that all hypnosis is self-hypnosis. Results are ultimately achieved through the client’s own personal efforts at applying these techniques over time for which each client must accept full responsibility.

Audio and all its contents are copyrighted and shall not be used or distributed in any way without the consent of State of Mind Hypnosis.
